~ Want A Green Lawn All Winter? ~
Annual Rye Grass will give you a beautiful, emerald green lawn all winter long. We have rye grass seed by the 1 pound or 50 pound bag. In addition, we have broadcast spreaders for seeding and fertilizing your lawn. Best of all, we have all the advice, information, and help you need to make your lawn the "Green Envy" of the neighborhood!

~ Kale, Cabbage, Mums & Pansies ~
Almost makes you want to make a salad! The ornamental cole crops (Cabbage and Kale) love the cooler weather. Cooler temperatures are what stimulate them to change from regular old green to an outstanding rainbow of colors, lasting all winter long. SOME of the kale that we offer are edible so take advantage of both worlds - when you get tired of your display, or just plain old hungry......eat it! Viola and pansy blooms, dusted with sugar, are often used, and eaten, on iced cakes. Don't try eating mums, but the bright colors are outstanding in your landscapes and fall displays.

Annette's Corner

Today finds me traveling with my family through the mountains near Maggie Valley, N.C. What spectacular views of the mountains and the changing fall leaves! Lots of visitors to share the road with, also. Plenty of color at "The Creek" too! Mums are at peak color and the pansies are glorious. Lots of sizes to choose from, and they will provide much beauty all winter long. If you're out and about this weekend, come see us at the Aiken Home Show. This event is sponsored by the Aiken Standard Newspaper and will be held at the USCA Convocation Center on Friday and Saturday. It's a fun event and a great place to get new ideas for your home and landscape. Be sure to register for a "Backyard Makeover" sponsored by Cold Creek Nurseries. I can't wait to be back at the nursery, and to see all my friends who visit me at work. Maybe another week and I'll see you there. Be safe and enjoy the season!
